ROLES, RESPONSIBILITIES & REPORTING (RRR)

Billing System Implementation & Operations Framework

1. Supported Billing Types

Sr. No.	Billing Type
1	Maintenance
2	Electrical
3	Water
4	Gas
5	BNB
6	Haritage Club

2. System Integration Framework

Integrated System	Purpose
RIS	Client master data & category verification
Challan Management	Enforcement fines & tower charges verification
Accounting System	Ledger automation, arrears & collections control
Admin Module	Employee verification & discount authorization
Meter Management	Meter installation, replacement & faulty meter validation

3. Roles & Responsibilities Matrix

Role	Key Responsibilities
Billing Officers	Create billing month, verify category/arrears/challans, generate & post bills, verify summaries, modify bills with approval & audit trace
Accounts Officers	Verify arrears & collections, approve post-billing modifications, ensure ledger integrity
Enforcement / Towers / RIS Officers	Verify challans before billing inclusion
Admin Officers	Verify employee records & approve discount eligibility
Electrical Officers	Verify disconnections, approve reconnection & faulty meter charges

4. Governance & Control Framework

Control Area	Control Description
Pre-Billing Control	Mandatory verification before bill generation
Bill Posting Control	Automatic ledger creation & audit logging
Post-Posting Modification	Approval authority required with transaction tracing
Audit Compliance	Full accountability trail maintained within system
